

**Group Software Solutions**

The Global Software Solutions team (GSS) are an in-house software development team catering to the wide variety of needs of the AST Group. We exist to support, maintain, and improve current AST systems, drive automation and modernisation and create new software systems that will bring in revenue for the group. Some of the more well-known solutions we maintain and improve are as follows:

- My AST Portal
- The IBIS billing client
- iRams
- IRIS
- PMS

Most of the team are located upstairs in F7 (the large room to the right of the stairs) but we also have some staff based in Bawburgh, as well as one
